WHY THE I-MENU?

A picture is worth a thousand words. At Carwash Services we took that to heart when we set out to find a way to not only make our menus more visually stunning, but also to make selecting a package as user-friendly as possible. Then it dawned on us! What's the one thing everyone these days uses? A smartphone. We found that by changing our menus into a format using icons, the packages became simpler to choose from and more appealing to every customer. Our customer satisfaction skyrocketed right along with our profits! Now that we found the answer for ourselves, we would like to introduce you to the I-Menu 2!
